

Did you know?

You can surf the internet for **FREE** islandwide using Wireless@SGx, Singapore's largest free Wi-Fi network that offers seamless and secure wireless connectivity and unlimited data usage.

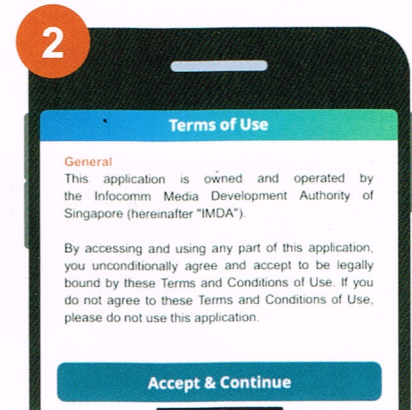

STEP 1

Install the Wireless@SG App on your mobile device

Go to the **Apple App Store** or **Android Play Store** to download the Wireless@SG (New) app and launch the application.

Click "Let's Go" to start the configuration on your mobile device.

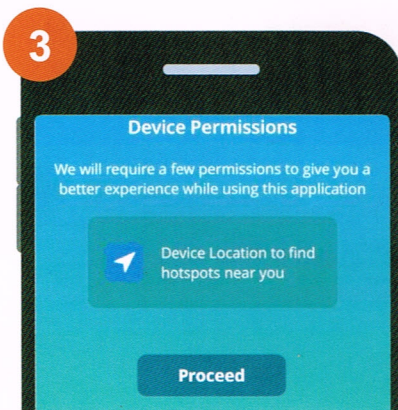

Read the **Terms of Use** and click "Accept & Continue".

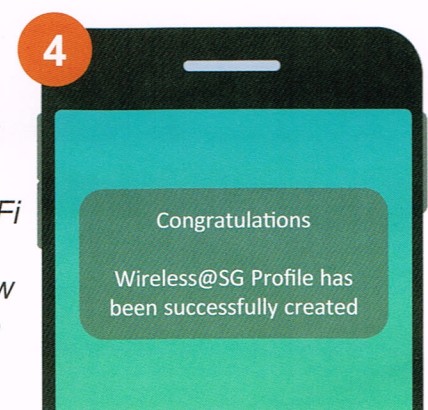

STEP 2

Configure Wireless@SGx account on mobile devices with SIM cards

Allow the app to access your location.

iOS users will be redirected to install a Wi-Fi profile in their devices. Follow the prompts to complete the configuration

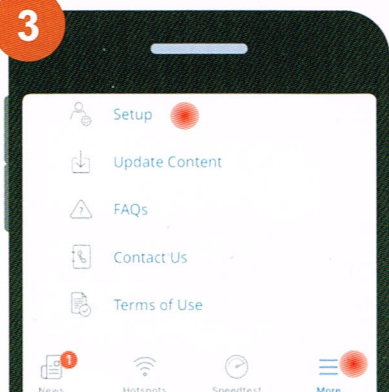

The illustrations above are taken from iPhone interface.

STEP 3

Connect to Wireless@SGx on mobile devices without SIM cards

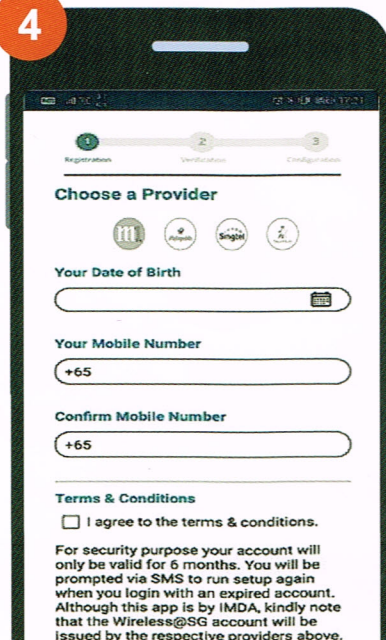

3

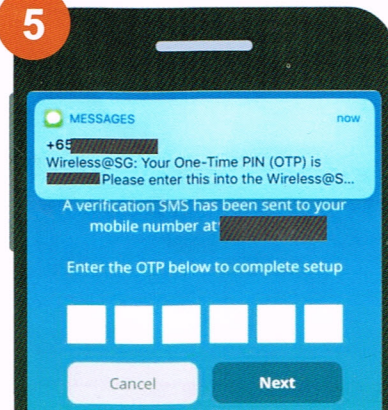

In the app, select “More” and “Setup”.

Choose any service provider and enter your date of birth and local mobile number.

4

5

Complete the registration by entering the One-Time-Pin (OTP) that you received via SMS.

Cyber security tips

- **Log out** of your Wi-Fi connection or accounts after use.
- **Clear** browser's cache and internet history after each session.
